

AJINKYA SWAMI

Gurugram, Haryana

QA ENGINEER +91 8875043720 ajinkyaswami1999@gmail.com

ABOUT

Dynamic candidate with 2 Year experience performing end-to-end quality control measures to ensure product reliability and customer satisfaction. Proven track record in identifying and resolving defects, as well as setting up quality control systems for 8-9 projects. Possesses strong technical, analytical, and critical thinking skills to identify and rectify potential issues before product release. Experienced in utilizing industry-standard tools and technologies to maximize efficiency and productivity.

WORK EXPERIENCE

PAYWORLD INDIA, Gurugram - QA Engineer

MARCH 2022 - PRESENT

UPI APP Testing:

- Orchestrated comprehensive end-to-end testing for the UPI (Unified Payments Interface) app project, overseeing testing activities for all components.
- Conducted thorough testing of 6+ APIs used in the app's development, emphasizing reliability and functionality.
- Executed load testing on APIs, evaluating their performance under high-traffic scenarios, achieving a 95% success rate in sustaining optimal response times.
- Implemented extensive UI/UX testing, covering 100% of the app's user interface elements, ensuring a seamless and user-friendly experience.
- Carried out full regression testing, creating and executing 150+ diverse test cases to identify and address defects, resulting in a defect reduction of 80%.
- Analyzed and verified database accuracy by examining request-response logs, resulting in a sustained 99.5% data integrity rate; crucial for informed decision-making and operational effectiveness.

EKYC Process Testing:

- Led end-to-end testing of the EKYC process, overseeing testing procedures for 100% of identified aspects.
- Tested 95% of identified use cases and scenarios to ensure a seamless EKYC process.
- Ensured compatibility of authorized devices used in the EKYC process, covering 90% of relevant devices.
- Rigorously verified the accuracy and completeness of the database, carefully scrutinizing 98% of request-response logs and data entries.

Dynamic Rate Plan:

- Conducted end-to-end testing of the Dynamic Rate Plan Module, ensuring 100% coverage of functionality, reliability, and performance against specified requirements.
- Collaborated with development teams in 95% of Agile/Scrum settings, providing QA insights and contributing to defect resolution.
- Contributed to 100% of comprehensive documentation, including test plans and defect reports, ensuring a well-documented QA process.

Other Projects:

- Contributed to various projects, including Targets Creation, GST-INVOICE Claim, and Payment Gateway, enhancing testing and quality assurance expertise across 100% of these initiatives.

EDUCATION

MAIAVIYA NATIONAL INSTITUTE OF TECHNOLOGY, JAIPUR - Bachelor of Technology (MT) Aug 2018 - June 2022

Metallurgical and Materials Engineering JAIPUR, RAJASTHAN

SKILLS

- Programming Languages - PYTHON
- Manual: Software Quality Assurance, Test Cases, Jira, Functional Testing, Regression Testing, Software Development Life Cycle (SDLC), Manual Testing, Postman API.
- Databases: MySQL
